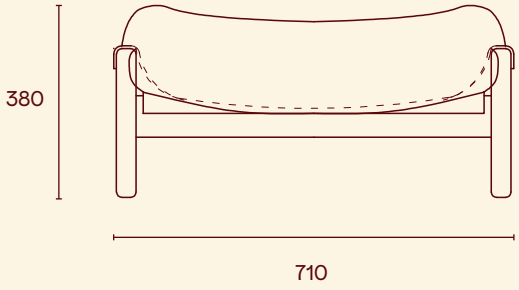
Specification Sheet

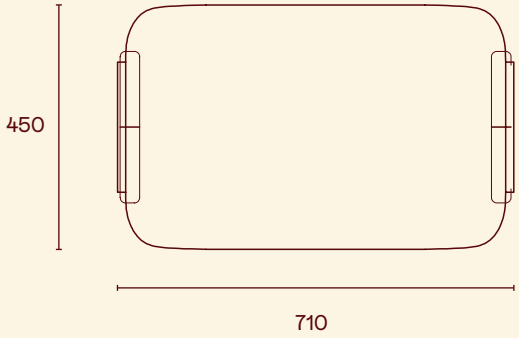
LENTO FOOT STOOL

The Lento footstool is designed to complement the Lento armchair, combining a solid timber frame with a softly upholstered top. Armchair sold separately.



Dimensions

710W x 450D x 350Hmm
Weight: 11kg
Maximum recommended user weight: 110kg



Material composition & construction

Frame & Base: Solid timber construction in American ash or American walnut

Finish: Clear lacquer finish with 2H scratch resistance

Seat Construction: Layered support system comprising internal plywood reinforcement with dual canvas suspension and high-density foam cushioning

Leather: Fixed premium Australian leather

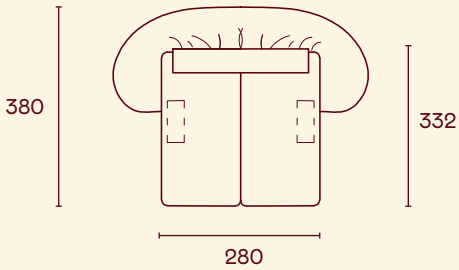
Available combinations

Walnut

Chestnut Leather

Ash

Nougat Leather



Leather technical information & composition

Leather:
Top grain leather, sourced from Australia. Lightly corrected and finished with a refined lychee emboss, creating a consistent surface with a subtle natural character. Upholstered in protected leather, finished with a surface coating to improve resistance to staining, abrasion and light exposure. This treatment ensures colour consistency and durability suited to residential and light commercial environments.
Thickness: 1.2–1.4 mm
Abrasion Resistance: ASTM D7255-14, 500 rubs (1000g load)

Carton information

Number of Cartons: 1
Carton: 770 x 500 x 405mm | 14kg
No assembly required

Dimensions provided are approximate only and manufacturing tolerances apply
Finishes and colours are provided as a guide.

LENTO FOOT STOOL

Care & Maintenance

Timber:
Dust regularly with a soft, dry cloth. Clean with a damp cloth and mild soap solution, wiping in the direction of the grain. Avoid excessive moisture and harsh chemicals. Protect from direct sunlight and maintain a stable indoor environment to minimise movement or cracking.

Leather:
Dust regularly with a soft, dry cloth. Avoid the use of water, detergents or harsh cleaning agents. In the event of spills, blot immediately with a clean, dry cloth — do not rub. Keep away from direct sunlight and strong artificial light to minimise fading or discolouration. Avoid contact with abrasive materials, chemicals or coloured fabrics that may transfer. Apply a leather conditioner specifically formulated for aniline leather sparingly, and only when required. Natural variations, subtle markings and the development of a patina over time are inherent to genuine leather and contribute to its character.

Warranty

Warranty period is 24 months from date of purchase.

Natural materials such as timber and leather contain inherent variations in colour, grain and texture. These are natural characteristics and not considered defects. Lento footstool is not suitable for outdoor use. The footstool is designed for seating and support use only and should not be used as a step or ladder.
General everyday wear and tear is not considered a defect and is not covered under warranty.
Products specified for commercial or high-traffic environments are assessed on a project basis. Due to the varied nature of commercial use, standard residential warranty terms do not apply.
