Specification Sheet

BOSCO SIDE TABLE | STOOL

BOSCO-STOOL-FIR

Dimensions

410W x 380D x 440Hmm

Weight: 4.5kg

Maximum recommended user weight: 120 kg

Material composition & construction

Solid Douglas Fir sourced from North America.

Construction: Solid Douglas Fir with laminated timber sections and reinforced mortise-and-tenon joinery.

Finish: Douglas Fir with satin polyurethane lacquer finish.

Structural Performance: Tested for static load, impact resistance and lateral stability under seating conditions.

Douglas Fir

Carton information

Number of Cartons: 1

Boxed Dimension: 430 x 430 x 500mm | 6kg

No assembly required

Care & Maintenance

Timber:

Dust regularly with a soft, dry cloth. Clean with a damp cloth and mild soap solution, wiping along the grain. Avoid excessive moisture. Position away from direct sunlight or use window coverings to reduce fading and movement. Maintain a stable environment to minimise warping or cracking. Blot spills immediately. Use coasters, placemats and felt pads to prevent heat, spill and abrasion damage. Do not use abrasive cleaners or harsh chemicals.

Warranty

Warranty period is 24 months from date of purchase.

Warranty may be voided if improper cleaning or maintenance causes damage. Timber is a natural material and may contain inherent variations in colour, grain, texture and tone, these are natural characteristics and not considered defects. Bosco side table is not suitable for outdoor use. General everyday wear & tear is not considered a defect and therefore will not be covered by Manufacturing Warranty. Do not stand on or use as a step ladder.

Products specified for commercial or high-traffic environments are assessed on a project basis. Due to the varied nature of commercial use, standard residential warranty terms do not apply.
